It's Different Out Here™

July 27, 2026

IMPORTANT NOTIFICATION

Pre-Cruise Health Screening Advisory & Requirements

Dear Valued Guests and Travel Partners,

Your voyage is just around the corner, and we're looking forward to welcoming you aboard for a memorable journey ahead. As you prepare for embarkation, we'd like to share an important health and safety update to support a smooth and seamless boarding experience. Travel partners are kindly asked to ensure impacted guests review the following information.

Please read this communication carefully, as guests who do not meet the requirements outlined below will be unable to board.

What You Need to Know Before You Travel

Due to ongoing reports of serious health concerns in certain parts of Africa, and out of an abundance of caution, guests are required to disclose any travel to, residence in, or transit through the Democratic Republic of Congo, South Sudan, or Uganda within 21 days prior to arrival in the country of embarkation. Consistent with current Center for Disease Control (CDC) guidance and public health directives, guests who have traveled to, resided in, or transited through any of these countries within that timeframe will not be eligible to board.

In addition, any guests who have been in close contact with or cared for suspected or confirmed Ebola cases within 21 days prior to embarkation will also be denied boarding.

These precautionary measures are strictly enforced.

If you have any questions or need assistance, please contact your Travel Advisor or call Norwegian Cruise Line at 1-866-234-7350. Guests sailing outside the U.S. or Canada may visit www.ncl.com for local contact details.

We sincerely appreciate your understanding and cooperation as these measures help protect the health and safety of everyone on board and support a safe, enjoyable voyage for all.

As always, we are at your service.

Sincerely,
Norwegian Cruise Line
